Process Change Notification (PCN)

The recent acquisition of the Micrel semiconductor foundry in San Jose California by Microchip Technology Inc. has forced Silicon Power Corporation to relocate its SolidTRON semiconductor manufacturing to another Microchip owned foundry. All SolidTRON products will be affected by this change of location. This document serves as formal notification that Silicon Power Corporation is initiating a change of process of the products listed in Table 1.0. Quantities of these products required to fill previously booked orders have been allocated and are not listed in Table 1.0. The objective of this notice is to allow for proper planning and last time purchases of the remaining pre-change inventory.

Table 1.0 Products scheduled for Process Change

Silicon Power Part Number	Type of Change	Current Unallocated Pre-Change Inventory	Future Part Number Following Change	Expected Introduction of Changed Product
CCSCP32N15A10	PN, Foundry Location and Processes	15,000	SP245-01	2/1/2018
CCSAA32N15A10	PN, Foundry Location and Processes	1,200	SP245-02	2/1/2018
CCSTA53N30A10	PN, Foundry Location and Processes	0	SP295-01	11/1/2017

Respectfully,

William Hiltner
 General Manager
 Silicon Power Corporation
